

Ribbon Fiber Optic Cables

Manufactured by Silicon Lightwave Technology, Inc.

SPECIFICATIONS

	8-fibers
T [mm]	0.35
W [mm]	2.12
Singlemode attenuation [dB/km]	<0.8 @1550nm
Multimode fiber attenuation [dB/km]	<2.3 @850nm
Singlemode core/clad size [microns]	9/125
Multimode core/clad size [microns]	50/125
Storage temp. ©	-40 / +70
Operating temp. ©	-20 / +70

Features:

- Fiber counts 8
- Fiber types: singlemode
- Bare ribbon fiber

Applications:

- Commonly used with MTP or MPO connectors
- Used in high density array applications
